

The 19th Annual INJURY BIOMECHANICS SYMPOSIUM

University of British Columbia
Vancouver, CA
May 22-24, 2024

CALL FOR ABSTRACTS

The 19th annual Injury Biomechanics Symposium will stimulate and reward strong injury biomechanics research among students and recent graduates. The Symposium Committee invites abstracts of prospective presentations in all areas of traumatic injury biomechanics. Studies of interest include those that quantify human injury tolerance, develop analytical or experimental tools to assess injury risk, or evaluate the effectiveness of safety countermeasures in environments such as automotive crashes, sports injuries, or military trauma. All selected podium presenters will prepare a written manuscript to be included in the International Journal of Transportation Safety. Honorariums will be awarded to all selected presenters, both podium and poster.

Abstracts must be submitted by February 9th to: ibrc@osu.edu

Abstract submissions should be a Microsoft Word document and include the following information:

1. A title that clearly reflects the objectives and contents of the paper

2. Information required for **each author**:

- Name
- Current Affiliation
- Address
- Phone
- Email

Additional information required for **Primary Student Author**:

- University where research was completed
- Department/program enrolled in (e.g. Mechanical Engineering)
- Degree sought during work done for abstract (B.S., M.S., Ph.D.)
- Expected/actual degree completion date
- Advisor's name

The work presented must have been completed while the primary author was a student. The presenting author must be currently enrolled or have graduated within the year prior to the symposium; additional authors do not need to be students or recent graduates.

3. An abstract of no more than 500 words containing:

- Clear statement of the study objective(s)
- Outline of the problem that the study attempts to solve
- Methodology
- Data to be included
- Summary of results and current conclusions

4. State whether you would prefer a poster or a podium presentation slot. The committee reserves the right to alter the presentation type based on the submitted abstracts.

Please contact ibrc@osu.edu if you are uncertain whether your research is within the scope of the symposium.
